

I am Warrior!

Areas of Learning

As Writers we will be creating our own Myths and Legends based on our reading of some Norse Myths. Our myths will be set in Britain during Viking times and we will be using our historical knowledge to describe convincing characters and settings.

As Historians we will be exploring past peoples beliefs and attitudes and what was important to them by learning about Viking gods. We will also be showing the historical changes of Ancient Britain on a timeline.

As Scientist will be learning about the different food groups and the importance of a balanced diet. We will also be learning about the skeleton and its role in providing protection, support and movement.

As Artists we will be continuing to develop our skills in working with different materials. We will be exploring the use of printing and trying our hand at sewing.

In ICT, we are creating our own presentation to show off our knowledge of Ancient Britain.

Enterprise

As enterprising people we will:

Be looking at how the Viking invaders negotiated with the Anglo Saxons and how they traded with each other.

Global Citizens

As global citizens we will:

Be considering the impact that the Vikings had on the British people and what changes we can still see today.

Well Being

As people concerned with all aspects of well being we will:

Be reflecting on the attitudes and beliefs of the Viking invaders and exploring things which were of importance to them .

Communities

As a member of a community we will:

Be learning about how people made peace with one another and shared their resources to create safe communities.
