

# Viking Trelleborg-Type fortress

Viking Trelleborg-Type fortresses are a type of circular fort of a special design. They were built in Scandinavia in the Viking Age.

They are also known simply as Trelleborgs. All Trelleborgs have a strictly circular shape with roads and gates pointing in the four cardinal directions.

# Trelleborg Project

We would like you to design and make your own Viking Trelleborg.

You can make your Viking fortress out of any materials of your choice that you have at home. This might be cardboard (toilet roll tubes work well), lego, pipe cleaners or play-doh. You can be as creative and imaginative as you like. Try and make your Trelleborg stand up on it's own!

We can't wait to see your finished creations.

Viking fort, 950-1000AD
