

Equality Diversity and Inclusion Statement - Design & Technology

In Design & Technology, we are committed to equality, diversity, and inclusion by ensuring that all students can access, engage with, and succeed in the subject regardless of background, gender, ability, culture, or socioeconomic status. Learning activities are designed to be inclusive and adaptable, with appropriate differentiation, assistive tools, and flexible outcomes to meet diverse learning needs.

DT projects celebrate a wide range of designers, engineers, materials, and technologies from different cultures and communities, challenging stereotypes and promoting positive representation. Students are encouraged to draw on their own experiences and perspectives when designing solutions to real-world problems, fostering respect, collaboration, and empathy.

Health and safety practices, classroom routines, and assessment methods are structured to ensure fairness, accessibility, and student voice, creating a supportive environment where every learner feels valued, confident, and empowered to innovate.
