

Dear Parents,

Please find attached updated advice from Public Health England.

I have spoken to the children in assembly this morning about hygiene and the importance of hand washing. One of the things as a school we are doing to do to try and stop the spread of any infections - colds, flu, etc - is to suspend hand shaking in the mornings by way of greeting the children.

I feel that this is a sensible course of action during the cold and flu season and until this worldwide coronavirus situation dies down.

Thank you for your support

Miss McGann
